confidence

When was the last time you felt truly confident at work?

What were you doing, who were you with, and what made you feel that way?

→ *Reflect on what confidence means to you and what situations help you embody it.*

Voice

If you could express yourself fully without fear of judgment, what would you say — and to whom?

→ *Explore what holds you back from speaking up and what you truly wish to communicate.*

growth

Imagine your ideal self one year from now — what has changed in how you show up, think, and lead?

→ *Write about the habits, mindset, or environment that would support this version of you.*
